

## ICT FACILITIES

All departments are having multimedia projectors and smart boards and teachers are using them as far as possible. The students have access to internet both in their departments and in the internet lab. Library service of the college is mostly digitalized with KOHA software and students are becoming familiar with the same. Library books are tagged with RFID and efforts are taken to provide RF tagged ID cards to students so that the library will be fully automatized. Students are encouraged to use online resources for keeping touch with the latest developments in their fields of interest. All students are given access to e-journals through the Inflibnet. The students are advised for power point presentation and they are becoming familiar with the ICT facilities. The laboratories in the departments are well equipped to meet the requirements of the syllabus.
