Programme Objectives	To make an awareness about the significance of wildlife for the propagation of life on our planet.
Programme Outcome	Students appreciated the role of wildlife for the propagation of life on our planet.
About The Programme	Environmental and wildlife conservation awareness forms an integral part of any formal science stream educational systems. Majority non science stream students do not get such an opportunity. It is in this context that Department of zoology made an initiative for an offline public lecture for all the students of our college. The topics handled were introduction to wildlife and environment, need to conserve and protect it, various governmental and nongovernmental initiatives of wildlife conservation, wildlife protection act etc.
